Date:

RTI Nodal Officer

An RTI Nodal Officer acts as a central point for handling Right to Information (RTI) requests within an organization, ensuring smooth processing and coordination between various Public Information Officers (PIOs) and First Appellate Authorities (FAAs). The Nodal Officer's composition varies depending on the organization but typically involves an officer designated to oversee RTI matters. Key functions include receiving RTI applications and appeals, directing them to the appropriate PIOs/FAAs, monitoring timelines, and ensuring compliance with RTI rules.

RTI Nodal Officer: Dr. PerwezYahya

Email.ID: yahyaperwez@yahoo.co.in

(Dr. Savita Sinha)
